

**Quiz Time!**

**Don't Click That!**

**Question 1:** Chip says that some online messages are like "sneaky traps." What is it called when someone tries to fool you with a fake link or message?

- A) Fishing for compliments.
- B) Phishing.
- C) Friending.

**Correct Answer: **B**) Phishing**

**Why? Chip explained that phishing is when someone tries to trick you into clicking a fake link by pretending to be something cool.**

**Question 2:**

You see a shiny button that says “You won a prize!”, but you aren’t sure if it’s real. What is the very first thing you should do?

- A) Click it quickly to get the prize!
- B) Type in your password to see what happens.
- C) Stop and ask a trusted adult.

**Correct Answer:**

**C)** Stop and ask a trusted adult.

**Why?** Chip says if something feels weird or looks too cool, you should always ask an adult before you click.

### **Question 3:**

Chip says 'smart squirrels know not every acorn is real.' Which of these is a big clue that a website might be FAKE?

- A) It asks for your secret password or home address.
- B) It has bright colors and pictures.
- C) It takes a long time to load.

Correct Answer:

**A)** It asks for your **secret password** or **home address**.

**Why?**

**A stranger** or a **fake site** will often ask for private things like passwords. Real sites won't ask you to share secrets where you shouldn't!
