

Quiz Time!

Personal Info: What's Okay to Share?

Question 1:

Chip says it is fun to talk to friends online, but some things must stay secret. Which of these is **SAFE to share online?**

- A) Your home address.
- B) Your favorite color (like saying you love pizza!).
- C) The name of your school.

Correct Answer: B

Why? Chip says sharing things like your favorite color or food is harmless fun. But where you live and go to school are private secrets!

Question 2:

When you sign up for a new game, the computer asks for your name. According to Chip, what is the best thing to type in?

- A) Your full real name (First and Last name).
- B) Your mom or dad's full name.
- C) A cool nickname.

Correct Answer: **C**

Why? Using a nickname protects your real identity. As Chip says, never share your last name online!

Question 3: Why does Chip say your personal info is like a '**secret stash of acorns**'?

- A) Because acorns are delicious.
- B) Because once you give it away, you can't get it back.
- C) Because you should bury your computer in the ground.

Correct Answer: B

Why? Once you type your private information onto the internet, it is very hard to take it back. That is why we have to protect it!
