The Digital Trail You Leave Behind

Question 1:

Chip says that when you play games or post pictures online, you leave something behind—just like paw prints in a forest!

What is this called?

- A) A treasure map.**
- B) A digital trail.**
- C) A secret password.**

Correct Answer: **B**

Why? Chip explains that every click, comment, and game creates a 'trail' of information about you. Treat your device like a treasure—store it safely!

Question 2: According to the video, which of these is “too much information” to share online?

- A) Your home address and the name of your school.**
- B) Your high score in a video game.**
- C) That you like acorns.**

Correct Answer: 

Why? Chip says sharing private details like where you live or go to school is **unsafe** because it tells strangers exactly where you are.

Question 3:

Chip gives a very important rule:
"Think before you post."

Why is this important?

- A) Because typing is really hard work.
- B) Because you only get one post a day.
- C) Because once something is online, it can be hard to erase.

Correct Answer: ©

Why? Just like a footprint in mud, once you put something on the internet, it is difficult to take it back completely.
